T. W. ROBINSON'S.

We Have the Finest AND The Cheapest Goods

The above is one of the many comments expressed by our numerous customers who have examined our stock. It has always been our aim to give the best value for the money, always omitting from our list cheap and poor goods, knowing that it is poor economy for anyone to purchase such. Our range of Dress Goods and Dress Lengths excel any we have ever shown, the quality, design and colorings are superb. We know that you want a nice costume; see our many lines before purchasing. Our range of Prints and Flannelettes is superior to any we have ever shown before. Our stock throughout is difficult to equal. We solicit an early inspection of these goods. You will find in it great saving of money.

We still carry the celebrated McPherson shoes, our stock is twice as large as formerly.

In Gents' Furnishings we carry a greater range of Gents' Ties than all the stores in Moose Jaw combined.

HATS, CAPS AND CLOTHING.

We have all the latest English and American styles—We are sure to fit you, and will save you money—Save your dollars till you have examined our stock.

Wine, Liquor and Cigar Store.

I have just received my winter stock of the above goods, consisting of the finest brands of the best known manufacturers in both the foreign and home markets. So if you must or will drink, take my advice and imbibe only the choicest liquors procurable in the wide, wide world.

G. FIELD.

A BAD SMASH-UP.

Two Trains Attempt to Cross on the Same Track—A Fireman Injured.

On Tuesday afternoon the regular east-bound passenger train and a west-bound special freight collided on the main track about one mile east of Walsh. The fireman on the freight train jumped as soon as he saw the danger. The engineer whistled for brakes, reversed his engine and jumped. When the trains struck the shock was terrific. The two engines were incorporated into one heap of scrap iron.

Passenger engineer Naismith narrowly escaped with his life. He was badly bruised in the face and back. His fireman Mr. H. Upex was taken from the wreck a badly injured man. A passenger named Devins was slightly injured.

The tender of the passenger engine was driven half way through the express car; the express messenger, being happily near the rear of the car, escaped unhurt. The baggage car crashed into the mail car and made sad havoc with it. H. H. McCulloch, the mail clerk, was badly knocked about but received no injuries beyond a severe shaking-up.

All the platforms on the passenger coaches were badly smashed. The collision made kindling wood of the first three freight cars. The wrecking gang were brought to the scene of the accident with all the dispatch possible and in a remarkably short space of time had the obstruction cleared. The tender of the passenger engine was hauled away in the express car. Dr. Calder of Medicine Hat came out on the wrecking train and had the injured fireman removed to the Hat hospital.

A report to the effect that Upex had died was circulated in town on Wednesday afternoon, but such was not the case as the latest report states that the injured man is in fair way to recovery.

A document exonerating conductor Harley E. Miller from all blame was drawn up and signed by all the passengers.

THE PILGRIMS RETURN.

Immigration work Abroad—Messrs E. Colpitts and F. W. Green arrive from the East.

Mr. Enosh Colpitts returned from his trip to the maritime provinces yesterday morning. Mr. Colpitts was doing immigration work while away.

In conversation with a representative of the TIMES, Mr. Colpitts said "On the whole I consider my three month's work will be productive of much good to the Moose Jaw District. A large number of farmers and some mechanics will shortly leave for this point. The winter in New Brunswick was unusually severe; indeed the old and inhabitants characterize it as the coldest in their recollection. Spring was commencing when I left St. John. While the people in the east have not as yet grasped the vastness of our country, its capabilities and resources are becoming known, chiefly through the excellent immigration literature that is being circulated by the Canadian Pacific Railway Company. There is a feeling in the east that the young men must seek their fortunes in the northwest."

Mr. Colpitts further said "I consider it a decided mistake to bring settlers to this country too early in the spring. They see the country at its worst; the demand for hired help is not great; they get discouraged and their first impressions generally stay with them."

Asked to his side Mr. Colpitts

said that the season is late throughout the extent of the C.P.R. and is further advanced at Moose Jaw than anywhere along the line.

MR. GREEN'S STORY.

Mr. F. W. Green who has also been doing immigration work in Ontario returned yesterday morning. He states that he has seen sufficient on his trip to convince him that there is no place like Moose Jaw. A large spring immigration may be looked for and a number of young men are coming to the Moose Jaw District for next harvest. He found the people eager to learn about the North-West.

Mr. Green addressed a large public meeting at Aberfeldy. The majority of the people associate Manitoba with the North-West and cannot understand that they are not synonymous terms. Some of the farmers do not receive immigration agents very cordially as the price of land is lowering and a discontented feeling is springing up among the young men. The newspapers, also, do not give fair, impartial reports of public meetings, and a strain of sarcasm runs through their articles.

Mr. Green states that on one of his trips Mr. and Mrs. E. N. Hopkins of Bohrm, and J. A. Kammerer, formerly of Moose Jaw, were passengers on the same train with him, and that all four had a great canth regarding Moose Jaw.

Mr. Green brought back with him, among some other valuable stock, a handsome thoroughbred Clydesdale stallion.

The School Board Meets.

A regular meeting of the Moose Jaw School Board was held in Mr. Green's office on Wednesday evening. The chairman, Mr. T. B. Baker, and Messrs W. W. Bole and Amos Hicks were present.

The minutes of the meeting of the 15th inst were read and confirmed.

Tenders for the building of a sidewalk from the school house to the main sidewalk on High Street were received from Messrs. Beards, McVannal, Lennie, McLeod and Ansaale.

On motion of A. Hicks seconded by W. W. Bole the tender of Mr. McLeod was accepted at \$60, the sidewalk to be completed by April 1st.

An account from the Moose Jaw TIMES of \$2.04 for advertising tenders was read and passed.

The Secretary was instructed to write Miss Christie asking her when she expected to be able to resume her duties as teacher of the Junior Department.

A communication and several affidavits were received from Mr. W. A. Porter to the punishment recently imposed on his son by Principal Calder. On motion of A. Hicks seconded by W. W. Bole Mr. Porter's communication was laid over until the next regular meeting.

The Board then adjourned.

CARTEL CHIPS.

How about the about the game that was going to have his crusher running the last week in March. There is a large quantity of grain to be crushed in the vicinity, we would offer a kind suggestion to R. M. that he would oblige by having it in running order shortly.

Mr. Peter Hudson intends having his new house brick veneered. Peter says he has come to the conclusion that brick is the cheapest in the end. We are glad to see the great number of one of our Carmel bachelors again in our midst, but contrary to expectation John returned alone.

Mr. G. Moore was visiting at the ranch of Mr. W. C. Saunders this week. He reports all the stock in good condition.

THE TOWN PARLIAMENT.

Monday Evening's Regular Meeting—A Large Grist of Business.

The regular meeting of Moose Jaw town council was held in the Clerk's office on March 27th, 1898.

Present Mayor Grayson, councillors Fyke, Neeland, Stinson and Hannah.

The minutes of last regular meeting were read and adopted.

The following communications and accounts were received:—

From Moose Jaw School Board asking for \$500 on their applications for \$1500; Neil McMillan account for \$74.35; Robt. Barnett account for \$6.75.

Neeland—Fyke—That the amount of \$500 be paid the school board, and that an order be drawn on the Treasurer for the same. Carried.

Fyke—Stinson—That the account of Neil McMillan and J. Barnett for stones and labor on Manitoba street be paid. Carried.

Neeland—Fyke—That the sum of \$210 be paid into Bank of Montreal, in Winnipeg to provide for interest on debentures when they fall due in April next and that the treasurer is hereby authorized to pay the same. Carried.

Stinson—Hannah—That the solicitor be instructed to take proceedings to collect taxes due this municipality by the firm of Saffery and Moore. Carried.

Hannah—Stinson—That Mr. Battell proceed to collect all licenses according to by-law. Carried.

Stinson—Fyke—That by-law No. 99 be taken into consideration with the view of taking further steps to ascertain the legality of the same. Carried.

By-law No. 99 re Harbours and Fisheries was read and discussed and the following notice was handed in:

I hereby give notice that at the next regular meeting of the Council I will introduce a by-law to amend by-law No. 99. (Sgt.) J. M. Stinson.

Hannah—Stinson—That the clerk prepare vouchers for the different drugs and register the same, when the license is taken out. Carried.

Neeland—Hannah—That the Board of Works Committee be instructed to report to the council at its next meeting the best material with to construct crossings on Main street and also the estimate cost of crossings at corners of Main and River, and corner of Main and High streets. Carried.

Neeland—Fyke—That the council of the Board of Trade be allowed the free use of the Clerk's office on the first Thursday of each month and the Board of Trade be allowed the free use of all town hall space every three months. Carried.

Fyke—Neeland—That the town Clerk request Mr. Wayne of the price of materials from the station to the corner of Manitoba street, that the proposed street crossing could be built by the C.P.R. Also that the national order of water in respect the C.P.R. property and it should be a mutual advantage if the C.P.R. authorities could open a ditch from the end of Main street which would prevent the flooding of their garden and provide good drainage for the town's present prospects indicate that it will be well to expedite its getting to the station in its present condition. Carried.

The meeting then adjourned.

OUR CREAMERY.

We are preparing every day. The Hopkirk, Bovey and Werry settlements fall into line. Between 50 and 60 cows are guaranteed. I appeal again to those in and around Moose Jaw to come on and sign for cows, as this is all seen that is complete to insure success. See advt. of a meeting of all shareholders and those interested in establishing a creamery. Marlboro, March 26.

The Western

WESTWOOD & CO.

2500

FOR

What these figures refer to particularly, you will require to read down.

The Fire of last year cleaned us out of Wall paper—not so much as ONE roll was saved. It was then too late to buy direct from the factory, and rather then have wall paper second handed, and consequently at a high figure, we did not buy at all. This spring we have placed in stock 2500 rolls wall paper and border direct from the factory.—Not an old pattern in the store, all new designs.—The interesting part of this advertisement to you is that we can save you money. Beautiful gold patterns from 20c. to 45c. in plain and embossed. Bed room patterns 30c. up.

COMMUNICATIONS.

A Plan for Fair Play.

To the Editor of the Times.

DEAR SIR

In your issue of the 21st inst. my name appears very prominent in the report of the meeting of that august body, "The School Board."

With all due respect to the decision of the board as reported, yet I think the least they could have done was to have given a little explanation on the matter and made it appear in a fair manner before the public, and not make it appear as if myself and the boy were altogether to blame—always remembering there are two sides to a question. If you will allow me space I will give our version of the case in as fair a manner as possible and in a manner that I can substantiate by proof. About the first of this month the Principal being absent from duty during the forenoon, one of the under teachers went up to his room and told the pupils they could either go home or remain as they liked (a very proper way to dismiss school). Naturally they all decided to remain and during the forenoon created considerable noise which evidently disturbed the teacher across the hall, who came into the room and in a very uncivil and unbecoming manner demanded silence. After he left the room my boy remarked in an off handed, joking way that "Mr. Laycock wants us to be quiet."

He, evidently hearing the remark, returned again and in an excited manner demanded that my boy go into his room no doubt for the purpose of allowing him to punish him. This he refused to do. In the afternoon the Principal attended school for a short time, and he, hearing of the trouble, passed a certain punishment on the boy for, he says, disrespect to Mr. Laycock. To this I objected.

To satisfy myself I called on Mr. Laycock and he told me that the boy had said nothing disrespectful to him nor did he recommend him to the Principal for punishment. This I considered sufficient and sent the boy to school again but he was not allowed to remain unless he took this punishment. Then I came to the conclusion that the Principal was punishing on his own account, as I concluded it could not be on Mr. Laycock's report, after the story he told, and I then decided to keep him out of school as I had reasons to believe that he was not getting fair play.

However the principal instituted an investigation, taking the evidence of the pupils in his room and saving it would be placed before the Board for them to decide. This was only partially carried out, as out of the evidence of twelve pupils only six was taken and upon this, together with a report from Mr. Laycock (which I am sorry to say is quite different so far as I can learn to the story he told me) they gave their decision. I was allowed no chance to put in a protest nor was any defence asked from my boy. They never endeavored to find out what manner Mr. Laycock spoke to the pupils nor the manner any other of the pupils spoke or acted but simply singled my boy out as the scapegoat.

In the meantime I intend keeping my boy out of school and leave the matter in the hands of the Inspector for further investigation.

In conclusion I would like to know why there was none of the pupils punished for the remarks made about the Principal at this time which I consider was very much more disrespectful than anything my boy was reported to have said. And also: "Is it not customary when a motion is put before a board of trustees for it to have a mover and a seconder. Then as in the other motions passed at this same meeting why does not the name of the mover and seconder appear."

I am Sir

Yours respectfully,

W. A. PORTER.

Moose Jaw, March 20, 1893.

[Mr. Porter takes exception to the manner in which one of the teachers dismissed the school on the morning of the disturbance. The teacher in question, who is myself ("Arizona Kidder") asks us to state that, after he informed the scholars of the illness of the Principal, he told them that he considered that the young ladies and gentlemen of the highest department of the school should be able to spend the forenoon in profitable study without any supervision.—Ed.]

The rink closed for the season on Wednesday evening last.

Although our streets have been badly flooded with the thaw, the energetic action of Councilor Fyke in opening up the drains has been productive of much good. Most of the sidewalks are dry. The canal lake, however, is in its old place at the foot of Main St. near the station.

Farms to rent and for sale in the best parts of this district with from 50 to 200 acres of land under cultivation. Apply to

SEYMOUR GREEN, 39A Office—High Street, West.

Another polar expedition, under the command of Conductor Burton, left Moose Jaw on Wednesday morning. The mails alone are being carried. The commissariat department is under efficient management. The expedition is bound for Prince Albert and a desperate effort will be made to reach that hyperborean region.

The undersigned wishes to thank her patrons for favors in the past and begs to inform them that she has opened a commodious boarding establishment in her new house on River St. East. Every accommodation for the travelling public. First-class board by the day and week.

42A Mrs. T. E. McWilliams.

The April Fair to be given by the Ladies' Aid of the Presbyterian Church on Wednesday next promises to be a pronounced success. The sale of tickets has been large. The preparation of a musical and literary programme is in the hands of a competent committee. Refreshments will be served during the evening.

Notions, notions and notions requesting lined below. I have opened an intelligence office for supplying lined help of all kinds, and have several applications for places. All parties desiring to hire help are requested to hand in their names with particulars.

SEYMOUR GREEN, 39A Office—High Street, West.

As will be seen by an advertisement in another column, the partnership hitherto existing between Messrs. Wilson and Timmins, general blacksmiths, has been dissolved by mutual consent. Mr. Timmins carries on the business alone and has secured the services of a first-class woodworker. Wesley is an energetic man and a good mechanic and will doubtless make a success of his venture.

Easter falls this year on April 2nd. The earliest and latest date upon which Easter can fall are March 22 and April 25. In 1886 Easter fell upon the latest date, which had not occurred before in the nineteenth century and will not occur again until 1943. The last Easter which fell upon its earliest date, the 22nd of March, was in 1818, and this will not happen again in this century nor in the next.

Mr. C. A. C. Given, district agent for the North-West of the North American Life Assurance Company has been in town for several days. He has recently made a tour of the eastern Territorial towns. Mr. Given was formerly a resident of Moose Jaw and he has renewed his acquaintance with a number of old friends. He is a live man and a hustler and will doubtless make things hum in the insurance line.

Considerable indignation is felt in town at the action of Mr. Keyes, proprietor of the skating rink, in closing the rink and leaving it for the remainder of the season. This is a glaring injustice to those having season tickets. A season ticket entitles the holder to the use of the ice as long as the skating season continues. The leasing of the rink to another party without making a stipulation to secure to ticket holders the right to the ice is regarded as rather a small piece of business.

Intimate friends of Mr. James Brass have been at a loss for some days to account for a strange smile that lurked in the background of his face. Some laid it to the promise of an immense number of new buildings during the coming summer, and the consequent demand for red brick. But the wonder grew when the subject of this article made a trip to Regina recently and when asked as to its purpose, simply looked wise and answered not. But now the wonder is over. It was the benign influence of the season "In the Spring" quoth the sage. "A young

man's fancy" lightly turns to thoughts of matrimony. On Wednesday evening the aforesaid James Brass was quietly married to Mrs. Baxter, who has been a resident of the town for some years. The marriage ceremony was performed by Rev. H. W. Mack, pastor of the Baptist Church.

THE TIMES extends its heartiest congratulations.

Mr. Chas. A. Gass has erected in front of his implement and flour and feed warehouse a handsome business sign which is the handiwork of F. A. Melles. Some of the merchants in town whose places of business boast no sign at all, or whose signs are weather-beaten and generally tough-looking should take a leaf out of Mr. Gass' book. A few such signs would give our principal business street a vastly different appearance.

The last carnival of the season was held in the rink on Wednesday night. The ice was thronged with a large crowd of light-hearted and gaudy-costumed skaters. Many of the costumes were handsome and not a few were grotesque and fantastic. A special feature of the carnival was the re-organized brass band which discoursed capital music throughout the evening. The prize for the best lady costume was awarded to Mrs. J. Wilson, while that for the best gentleman costume was carried off by R. C. MacDonald.

KIRKPATRICK & COOKSON (Established 1860.) MONTREAL. COMMISSION MERCHANTS.

Advances made on consignments of WHEAT, OATS, BARLEY, ETC. for sale in Montreal in the various British Markets.

NOTICES.

Not mastered by some modern term,
Not swift nor slow to change; but firm."

FRIDAY, APRIL 7, 1893.

THE CLARK WALLACE MATTER.

Differences in the Dominion Parlia-
ment arising out of Mr. Coetigan's vote
on the Wallace matter are not likely
to cause more than a ripple in minis-
terial waters; but it is a gross strategical
blunder in such men to condemn in
Clark Wallace what they have almost
constantly practised or approved in the
furtherance of their own aims.

They have put themselves in a false
position whichever way they turn.
They practically declare that what is
sauce for the Nationalist goose is not
sauce for the Unionist gander.
They gave their votes, not as
Conservatives, not as Canadians,
but as sympathisers with a party in a
distant adjunct of the Empire; very
patriotic as Irishmen, but shewing a
willingness to wreck an administration
composed of men to whom the bolters
owe whatever of political advancement
they have secured.

Mr. Coetigan is in office as a public
man yet he declares by his vote that
an Irish party question takes preced-
ence of Canadian interests and Canadian
loyalty.

But we do not pen these words to
reflect on Mr. Coetigan, who is really
the victim of a vicious system which is
growing intolerable. Canadians as a
people are growing sick of class and
 creed and race distinctions. What has
a man's birthplace or religious belief
to do with his public duties if the
people have elected him to a public
position. Is it not time we were com-
petent to deal with public men in a
business-like way. Who ever hears of
a Yorkshireman or a Devonshire or
Cornish man, or a Welshman or a
Scottishman, ay, or an Englishman
posing as such before parliament? It
is to the honor of a majority of Canadians
that they rest their claims to the con-
sideration of their fellow men on more
practical and more logical grounds;
viz., their personal character and use-
fulness. We are safe to assure all who
seek to ride into power or to coerce
others through sectional prejudice,
that the country will not stand it; the
Dominion treasury will not stand it,
and a growing public opinion stamps
with regulation the practice of trading
on one's faith or nationality to gain or
retain place or power.

OUR GREAT NEED.

The following reference to the North-
West is from the pen of Mr. Joseph
Nelson, a writer to the Glasgow Daily
Mail:

"This region which embraces an
area of 400,000 square miles of exceed-
ingly fertile soil is destined to become
the greatest cattle breeding and ex-
porting country in the world on an ef-
ficient outlet to the sea being establish-
ed. It has been demonstrated by
actual experience to be admirably ad-
apted for the breeding and rearing of
healthy cattle, but the development is
retarded by the fact that to reach a
port of shipment the cattle have to be
sent by railway from Winnipeg to
Montreal, a distance of 1,424 miles.
They suffer terribly in transit, deteriorate
and become predisposed to disease
and subject to infection by skirting the
frontier of the United States for a con-
siderable distance, a country which
Mr. Chaplin declared in his speech was
"full of disease, and owing to the
length of frontier between Canada and
the United States it was impossible to
insure immunity for Canada." So far
as Manitoba and the North-West Terri-
tories are concerned, all these losses
and dangers can be alleviated and the
cost of freight reduced more than com-
pensation by the cost of a railway
from Port Nelson on Hudson's Bay
(less than 100 miles) to the Saskatch-
ewan River. To this point cattle can
be driven from the foothills of the
Rocky Mountains, and feed and fatten
all the way, the Dominion Government
proposing to retain a width of country
of twenty miles through the Territo-
ries for a public cattle drive. Hudson's
Bay is open for navigation by steam-
ships for five months of the year with
the most perfect safety, as proved be-
fore a select committee of the Dominion
House of Commons in 1884, 1885 and
1886. Port Nelson and Hudson's Bay
is nearer to Glasgow than Montreal,
and the navigation declared by experi-
enced authorities to be safer than the
Gulf of St. Lawrence.

THE EXPERIENCE OF MANY.

Toronto Empire: Mr. Thomas R.
Longhead, who, with his family, moved
from a farm in the neighborhood of
Meaford to South Dakota five years
ago, passed through Toronto yesterday
en route to Edmonton, where he has pur-
chased a farm and intends remaining
for the rest of his days. Speaking to
the Empire yesterday afternoon he
said: "I was induced some five years
ago to leave a fairly good farm of 160
acres in Ontario, which I sold at a
sacrifice, and go to settle in Dakota.
I went because I believed the reports
which had been made about the farm-
er's prospects in that country. I was
doing very well in Canada, but wished
to improve my position, like many
others who went west at the same time.
I am sorry that I did not know as
much then as I do now. My experi-
ence has just cost me a good farm in
Canada, worth probably \$6,000, a farm
in Dakota for which I paid \$4,000 and
made improvements worth \$2,000; five
years of hard labor and the opportu-
nities I have lost. These are some
of the things I squandered while trying
to carve out a future for myself and
family in the United States. I wish
the American railway land agent who
some years ago drew a glowing picture
of Dakota to me, and with them induc-
ed me to leave Canada, would go with
me to that God-forsaken region to-day,
I would show him miles and miles of
abandoned land, farm after farm with
first-class buildings upon them and im-
provements costing in the aggregate
hundreds of dollars, all left to the
mortgagees, who have ground money
from their victims in such a manner
as would make a man's blood run cold.
Three weeks before I left there were
at least 200 people within a radius of
two miles about me. The Saturday I
left there was not a living soul within
ten miles square of my house. The
farmers are flocking out of the country
in thousands. Many are coming to
the Canadian Northwest, but now
nearly as many as would but for a re-
port which Yankee agents have spread
that there is a quarantine on settlers
coming into Canada. I don't know
whether this is true or not. I sold
what stock I had last fall. If it is true
then the Canadian government is mak-
ing one of the greatest mistakes it ever
made. Thousand of American farmers
who own land along the Northwestern
border are anxious to get into our

Northwest. I cannot explain how it
is that people, like cattle, are liable to
stampede, and when they start just
like the cattle, they all follow the lead-
er. Now, the great bulk of these
farmers have regularly stamped; their
leaders have rushed into the Northwest
and they are ready to follow. They
are not ready to follow. They are not
like ordinary immigrant settlers, who
arrive here without a dollar and who
in many cases, are a burden to the
country; they have stock, implements,
and best of all, experience in how to
farm in this country.

NOTES AND COMMENTS.

An Irish unionist manifesto has been
issued over the signature of the Duke
of Abercorn, the Marquis of London-
derry, the Earl of Erne, Lord Arthur
Hill, Col. Sanderson, the mayors of
Belfast and Londonderry, and others.
The manifesto announces the formation
of an Ulster defence league, "not
merely to continue the struggle for
the union, but to prepare to meet any
contingency." Over one million pounds
have already been subscribed as a fight-
ing fund.

Medicine Hat Times: A number
of letters have appeared in the Winni-
peg Free Press on the "Prize puzzle"
fake business. Some of the victims
have sad tales to tell. They would win
a valuable diamond ring, and have to
forward three or four dollars for "pack-
ing and forwarding," and ultimately re-
ceive an article of little or no value.
People in the west are commencing to
realize the folly of sending good money
out of the country to enrich eastern
"fake" concerns. We should never
try to "beat a man at his own game,"
or make "something out of nothing."

The Dominion Government has de-
cided to print one hundred thousand of
the blue book containing the reports of
the various Experimental Farms.
These will be for gratuitous distribution
amongst farmers. The Hon. T. M.
Daly has signified his readiness to send
copies for distribution to all farmers'
institutes and all institutions of like
nature. All that is necessary to secure
a copy is to make application to the
secretaries of such associations. Our
Farmers' Institute and Agricultural
Society should apply for a large number
of these valuable books.

The department of interior report
states that the advance of \$97,400
made by the government in 1872 to
the Manitoba Mennonites, on the se-
curity of a party of Waterloo, Ontario,
farmers, has been repaid in full with
\$33,986 interest. Last year the
Mennonite colony in Manitoba was in-
creased by 900 souls, 300 from Russia
and 600 from colonies which had been
established in Kansas and Nebraska in
1874 and 1875. The report gives a
great deal of credit to J. Y. Shantz, of
Waterloo, who distributed the loan
and collected the returns. Mr. Shantz
last year interested himself in estab-
lishing a colony in the vicinity of Oids
on the C. & E. line.

"Complete Manhood AND HOW TO ATTAIN IT."

A Medical Work that Tells the Causes, Describes the Effects,
Points the Remedy.

Essentially the most valuable, scientifically the most beautiful medical book ever pub-
lished. 32 pages, every page bearing a full-size illustration in color. Subjects treated—
Nervous Debility, Impotency, Sterility, Development, Varicocele,
The Heart, Throat, Lungs, etc.

Every man who would know the Grand Truth, the Plain Facts, the Old Secrets and
New Discoveries of Medical Science as applied to Married Life, who would come to rest
below and avoid future pain, should own for the WONDERFUL LITTLE BOOK.
It will be sent free, under seal, while the edition lasts. Address the publisher,
ERIE MEDICAL CO., Buffalo, N.Y.
